

Press release

## VPInstruments' webshop is online!

Delft, 8 January 2020

VPInstruments, manufacturer of leading flow measurement equipment for easy insight into energy flows, is happy to announce the start of their new webshop!

With the webshop, it is always possible to place an order regardless of which country or continent you live. Also when there is no distributor in your country or area, it will be possible to purchase your compressed air instrumentation.

On the webshop you can buy the following. All instruments are available in plug&play start kits; all you need to start measuring immediately.

- VPFlowScope 4-in-1 flow meters: measures bi-directional flow, pressure, temperature and totalized flow.
- Dew point sensors

The webshop is accessible 24/7. So go to the webshop and order your VPFlowScope in just five clicks! Start saving today! Visit the new webshop at: [shop.vpinstruments.com](http://shop.vpinstruments.com)

### About VPInstruments

VPInstruments offers industrial customers worldwide easy insight into energy flows. We believe that industrial energy monitoring should be easy and effortless, to enable insight, savings and optimization. VPInstruments products are recommended by leading energy professionals and offer the most complete measurement solution for compressed air flow, gas flow and electric energy consumption. Our monitoring software VPVision can be used for all utilities, and enables you to see where, when and how much you can save. Our products can be found all over the world. We serve all industrial markets, for example; automotive, glass manufacturing, metal processing, food and beverage and consumer goods. We can also help your industry. Let us open your eyes and start saving energy.
