

BASIC INDUSTRIAL COMPRESSED AIR SYSTEM TRAINING

WITH INDUSTRIAL COMPRESSOR SOLUTIONS

WHAT ATTENDEES GET OUT OF IT:

A NON-MANUFACTURER SPECIFIC APPROACH TO THE COMPRESSOR ROOM

- Theory and design criteria
- Component, equipment, & system level viewpoints
- Safety and responsibility
- Operating principles
- Maintenance and troubleshooting
- Installation considerations
- Controls and instrumentation
- System evaluation
- Inspection and reporting
- Taking control of your compressed air system

INDUSTRIAL
COMPRESSOR
SOLUTIONS

YOUR TRAINER HAS UNIQUE EXPERTISE.

Josh Wamser has **over 25 years of experience** in compressed air, contracting, training, and military-taught engineering - a rare combination of strengths that gives him the insight and unique ability to improve any facility's reliability.
